Company Profile

Company History

In March 2022, amidst the Covid pandemic, a new business was born, a family-owned and locally-based company, that aimed to meet the needs of its community. We recognized the unique challenges of starting a business during such a difficult time, but saw an opportunity to create something meaningful that could make a positive impact.

The company started small, however, we were determined to build a strong foundation for the business, one that would be grounded in shared values and a commitment to the community. Despite the challenges of the pandemic, the company was able to thrive by focusing on its strengths. Being a completely local business was another advantage for the company. Locally grown and sourced premium ingredients to make the best cake mix for our customers.

By sourcing materials and services from within the community, we were able to support other local businesses and build relationships which also helped to foster a sense of pride and loyalty among our customers, who appreciated the company's commitment to their area. As the business grew, we continued to prioritize the values of community, family, and quality. We expanded our offerings through our AiPCakes "Pay it Forward". An initiative to funding underprivileged education for kids and working with other like minded non-profit initiatives. We remain committed to giving back to our communities, through charitable donations, volunteer work, and other efforts. Today, the company has a loyal customer base and a reputation for excellence. Its growing success is a testament to the resilience and ingenuity we work towards maintaining daily.

Our goal is to craft and inspire precious heartwarming moments; One Cake, One Humanitarian Effort, One Community at a time!
