CONSTRUCTION SECTOR

CONSTRUCTION SECTOR SOLUTIONS

YOUR **PREMIER PROVIDERS** FOR
EVERY CONSTRUCTION NEED

Together, we are
Family

WHO WE ARE

T&T'S CONSTRUCTION DREAM TEAM

BUILT FROM THE IMPENETRABLE FOUNDATION OF THE REGIONALLY RENOWNED ANSA MCAL GROUP OF COMPANIES, THE ANSA MCAL CONSTRUCTION SECTOR WAS LAUNCHED IN 2019.

The Construction Sector fulfils the consumer need to receive all-encompassing building solutions of the highest quality, from one industry-acclaimed source. With the assembly of our various construction-related divisions under one focused unit, we are ideally positioned to provide an extensive range of solutions and services for projects of any scale. Our expertise, foresight, and ability to easily access cutting edge solutions from our diverse suite will certainly result in optimal value for you.

OUR MISSION & VISION

A photograph showing construction workers on a steel deck. One worker in the foreground is wearing a yellow safety suit and a yellow hard hat, leaning over the steel. Other workers are visible in the background under a clear sky.

A STRUCTURE OF EXCELLENCE

A photograph of a large steel structure under construction, showing a complex network of beams and columns against a blue sky. A crane is visible in the background.

MISSION

SUSTAINABLY SERVING THE REGION'S CONSTRUCTION SOLUTIONS NEEDS THROUGH EXCELLENCE IN PRODUCTS, PARTNERSHIPS AND SERVICE.

VISION

BE INNOVATIVE

Offer a diverse brand portfolio that serves the needs of our regional partners and customers with superb value.

BE CUSTOMER CENTRIC

Focus on meeting customer needs and expectations through excellence in service.

BE EXEMPLAR LEADERS

Be brilliant at the basics to drive performance through excellence in leadership.

OUR HISTORY

PIONEERING INDUSTRY

IN TRINIDAD AND TOBAGO

1881 George R. Alston establishes Geo R. Alston and Company Specializing in buying and exporting of cocoa in Trinidad and Tobago

1919 Charles McEearney acquires franchise for Ford motor car sales and establishes Charles McEearney and Company, later McEearney Motors and now ANSA Motors Ltd. This business venture expanded into Burmac Ltd and McEearney Business Machines (MBM).

1919-1947 George R. Alston founded Alston and Company in 1919 which became a fully incorporated limited liability company in 1921.

Alston & Company Ltd. Group of companies:

- Trinidad Match Company (T&T's first match company), est. 1887
- Alston's Shipping, est. 1905
- Trinidad Clay Products Ltd. (now Alston's Building Enterprises Ltd.), est. 1947
- Trinidad and Tobago Insurance Co. Ltd. (est. 1963)
- Alston's Ltd. (est. 1947)
- Caribbean Development Company Ltd.* (est. 1947)
*Brewing Company of our world-famous Carib beer!

1969 Merger of Alstons Ltd. With Charles McEearney and Company

1976 Establishment of McEearney-Alstons Ltd.

ANTHONY NORMAN SABGA INNOVATES THE INDUSTRY

1945 Anthony Sabga establishes Standard Distributors Ltd. Agency and distributor business grows dramatically through ventures with Caribbean and UK partners to expand into food stuff, manufacturing, and retail appliances.

1964 Establishment of hold company Anthony N. Sabga Land development and investment

1965 Establishment of ANSA Industries Ltd.

- Manufacturing of household appliances throughout the Caribbean
- Winner of Prime Minister's Export Trophy, 1968

1986 ANSA acquires majority shares of McEearney-Alstons Ltd. to form ANSA McAL

2019 Formation of the ANSA McAL Construction Sector

OUR REGIONAL FOOTPRINT

EXPANSION ACROSS THE ISLANDS

ANSA MCAL HAS FORGED AN INDELIBLE LEGACY OF INDUSTRY INNOVATION THAT CONTINUES TO TAKE THE CARIBBEAN FORWARD. IN 1959, ANSA BARBADOS WAS ESTABLISHED WITH THE GROUP MAKING ITS FIRST MAJOR ENTRY INTO THE MARKET WITH THE ACQUISITION OF STOKES AND BYNOE LTD.

TODAY, ANSA MCAL IS THE LEADING CONGLOMERATE IN THE CARIBBEAN REGION WITH SEVENTY-THREE COMPANIES SPANNING SEVEN SECTORS IN OVER EIGHT TERRITORIES.

THE ANSA MCAL CONSTRUCTION SECTOR OPERATES ANSA COATINGS PLANTS IN GRENADA ALONG WITH BERGER PAINTS IN BARBADOS AND JAMAICA.

OUR EVER-GROWING REACH AND DIVERSE COALITIONS ACROSS THE CARIBBEAN IS A STRONG ILLUSTRATION OF THE SIGNIFICANT IMPACT OF THE ANSA GROUP.

ABEL BUILDING SOLUTIONS

Abel Building Solutions (ABS) is a “one-stop shop” where customers can source many of their building needs, from flooring to roofing and everything in between. In addition to providing a wide range of building products, ABS also serves as a consultancy firm, guiding its clients through the entire building process. ABS adds value to its many relationships by engaging the expertise of its in-house team of engineers, draughtsmen and technicians, as well as leveraging its relationships and networks within the ANSA McAL Group, for the benefit of its clients.

ABS is comprised of five (5) divisions - ABEL Clay, Bestcrete, Metpro, Air-Conditioning and Engineered Systems. These divisions offer complementary building products and provide synergies and services that other companies are unable to. All ABEL, Bestcrete and Metpro products are locally manufactured to internationally accepted standards, with all companies being ISO 9000 certified.

VALUE**

ANSA COATINGS LTD.

ANSA Coatings Ltd. (ACL) is the most diversified manufacturer and supplier of paint and coatings in the Caribbean. The company was established from the integration of Penta Paints Caribbean Ltd. and Sissons Paints (Trinidad) Ltd. in June 2012. The operations of these two (2) leading manufacturers and distributors unified over one hundred (100) years of experience, knowledge and expertise in the sphere of coatings.

ACL is committed to manufacturing and distributing quality products and towards this end it has achieved and actively

maintains the ISO 9001 Quality Management System Certification. The company remains at the forefront of paint and coatings technology through its established relationships with acknowledged world leaders in paints (PPG Industries and Akzo Nobel) together with its own fully technologically advanced Technical Services and Development Laboratory. ACL manufactures and distributes paints and coatings in the categories of decorative and architectural, wood finishes, automotive, light and heavy duty industrial and marine.

ANSA TECHNOLOGIES LTD.

ANSA Technologies Ltd. is a leading energy services provider in Trinidad and Tobago and by extension, the Caribbean. With over seven (7) decades of experience, the company is widely recognised for its provision of high quality services and equipment supplies to the Oil and Gas, Refining, Petrochemicals and Chemicals, Power and Industrial sectors, nationally and regionally.

ANSA Technologies Ltd. was established in 2004 through the

merger of Hardware & Oilfield Equipment Company Limited (est. 1931) and H.J. Gransaul & Company Limited (est. 1941). It is therefore arguably the oldest and largest service, supply and installation company of its kind, not only in Trinidad & Tobago but throughout the Caribbean Region. ANSA Technologies Ltd.'s commitment to high standards defines the company's goal for maintenance of its ISO 9001 certified Quality Management System. The company is divided into two main business lines - Engineering and Projects & Construction.

BERGER

BERGER PAINTS CARIBBEAN

BERGER had its colourful beginnings in 1760, when Lewis Berger, an enterprising young German chemist had his big breakthrough. He had perfected the manufacturing process for Prussian Blue, one of the most important pigments of that period. That success eventually led to the genesis of Berger in the Caribbean with the formation of Berger Paints Jamaica Ltd in 1953, Berger Paints Barbados Ltd in 1963 and Berger Paints Trinidad Ltd in 1967. Since its inception BERGER has been providing innovative, cutting-edge paint products and services. Equipped with manufacturing plants in each island, BERGER is the largest paint-manufacturer in the English-speaking Caribbean, with 95% of the company's products manufactured locally. Backed by a

strong technical support team, BERGER conducts extensive research to develop paint products specifically for the Caribbean environment.

Having earned the distinction of being the first regional paint manufacturer to achieve the International Standards Organization (ISO) 9001 Quality Mark certification and the ISO 14001 Environmental Management Standard and consistently maintained its ISO certification, Berger remains committed to always exceeding customer satisfaction through manufacturing quality products in an environmentally conscious manner. In 2017 the ANSA McAL Group acquired the 3 Berger Paints operations in the Caribbean.

CARIBBEANtile
Roof Tile Company Limited

CARIBBEAN ROOF TILE CO. LTD.

Caribbean Roof Tile Company Limited, (CRTCL) was formed as the result of a Joint Venture Agreement between ANSA McAL Ltd. and Boral International Pty, an Australian company with significant presence in the clay brick and roof tile markets in the US. Production and first exports commenced June 2006. The Italian-designed facility will produce in excess of 13 million pieces of clay one-piece S roof tile, as well as the two-piece mission tiles, with a staff of 90 persons.

The tile design follows the "true S" profile, which also facilitates installation of the unique "faux mission". The product offering will include these two profiles in a minimum of six different colours and blends. Sales are geared mainly for North America, where a sole distributor, US Tile LLC, has been appointed. ABEL has been appointed sole distributor for all CRTCL products in Trinidad and Tobago and all of the Caribbean.

SUCCESS STORY

CARIBBEAN DEVELOPMENT CO. LTD.

LOCATION: CHAMP FLEURS

In 2017, the Caribbean Development Co. Ltd. embarked on the procurement and installation of two (2) new tanks for its facility.

PROJECT FEATURES:

Engineering, Procurement, Construction and Project Management Services for the supply, fabrication, installation and commissioning of a 17,000 gallon Corn Syrup Tank to be tied into its existing system and its swing bend panel. Design, procure, install and commission a Tank System for the storage of Alcohol. ANSA Technologies was able to design a unique storage tank system that was not only safe to operate (at high fluid temperatures of up to 110°C) but also conforms to international standards (ASME).
