About Us

“Oh Snacks” is a brand developed and owned by ASA Enterprises Ltd a Trinidad and Tobago-based family company established since 2000. “Oh Snacks” is currently engaged in the import, export, processing and trade of dried fruits, nuts and seeds and is a Market Leader with an overall market share of more than 70% in the Trinidad and Tobago market.

“Oh Snacks” quality control tools start long before the nuts are processed. Our industrial experience and our strong relationship with

International suppliers of raw materials, allows us to select and procure the right type of raw materials at the right point of time in order to keep the manufacturing process running at optimal efficiency.

An extensive inspection of every single lot of incoming goods through the company’s in-house laboratory is considered standard procedure. All incoming lots are intensively tested and analyzed.

In- process record keeping through the company’s quality assurance allows

us to maintain a daily manufacturing log. This measure ensures that both qualitative and quantitative controls and goals are met.

“Oh Snacks” currently operates out of a combined 15,000 sq feet manufacturing, storage and office administration space in Trinidad. This facility includes separate buildings for processing different types of products at different stages in the manufacturing process as well as different refrigerated warehouses for storing both raw materials and finished goods.

Our manufacturing facility of 15,000 ft², including refrigerated warehousing

Commitment to Quality

The quality of fruits, nuts and seeds starts from the fields. The selection of the best Raw Materials is of paramount importance to the quality result of the finished goods. Our long-term cooperation with our suppliers and farmers ensures the procurement of the best quality Raw Materials which always passes through a strict quality control before entering into our warehouses.

Mission Statement

To promote quality products that will assist in the development of a healthier lifestyle, by providing nutrition alternatives that will bring our customers a healthier and enjoyable life.

Vision Statement

Maintaining customer satisfaction through effective service and keeping close contact to our customer requirements by using state of the art technologies, hence improving a better and healthier life style.
