At Rojan Marketing Ltd, we strive to be the leading institutional supplier in the Caribbean. Our aim is to deliver a compelling customer service experience and everyday supply solutions to our customers. This company was incorporated in September 2018 as the materializing of an idea to focus on satisfying the purchase needs of institutions. These needs include cleaning chemicals, janitorial supplies and tools, paper products, food packaging and packaging supplies.

Our experience in the institutional supply industry falls on the background of the company being incubated as an Industrial Sales Department within Langston Roach Industries Ltd. We have pioneered our own institutional brand, named ROJAN and with over 30 years' experience in cleaning solutions, we have developed an exceptional reputation in service, quality, and affordability.
