# ABOUT US

Stingrae Caribbean offers premium seafood and meats to various establishments such as hotels, restaurants, and lodging facilities. We are an industry leader in manufacturing, marketing, and distributing food products for customers who prepare meals away from home. Our primary focus is on seafood products designed specifically for the food service, retail, and hospitality industries.

Stingrae Caribbean is a renowned factory that produces and exports a wide range of seafood products, including whole round, gutted, steak, slice, and fillet. They offer a variety of products that cater to specific customer needs, including king fish, carite, salmon, bangamary, white salmon, tuna, squid, barramundi, mahi-mahi, snapper, and so much more.

Our Exported Products: Branded Retail-Ready Items for Your Store. We specialize in exporting branded retail-ready products that are perfect for your store. Our range is continually evolving to reflect the seasons, but we also offer a steady product range that is available year-round. Essentially, your store's go-to destination!

The most popular by-catch species, such as Kingfish, Snapper, Shrimp Squid Amberjack, Grouper are also processed in Stingrae Caribbeans' factories and packed in various formats based on customer requirements.

Seafood Retail for Export Concept. "One stop" platform to access a variety of products. Leveraging our partnerships thorough our processing channel for access to premium products.

# WHAT WE OFFER

01.

## KNOWLEDGE

Decades of Experience and Strong Relationships for Sustainable Products.

Our years of experience and strong partnerships with representatives worldwide have enabled us to deliver high-quality products that meet sustainability standards.

02.

## PACKAGING

Transparency is key for us, which is why our packaging may seem minimalist. Our pouch packs allow customers to see our products in their entirety, with no hidden elements or gimmicks.

03.

## CONSULTING

Ensuring Quality Control with Close Monitoring of Product Origins

By constantly supervising the origins of our goods, we can create new and improved products. Our team arranges for regular production and loading inspections to provide peace of mind and guarantee the quality of our merchandise.

04.

## SUPERVISION

Ensuring High-Quality Products through Continuous Oversight

Our team's constant supervision during the production and loading of goods enables us to develop new products and offer peace of mind. We also conduct regular inspections to ensure quality and consistency throughout the process.

04.

## SALES

Real-time updates keep our after-sales team abreast of national and international regulations. They handle all the labeling, documentation and logistics procedures.

## WHAT WE DO

### TECHNOLOGY AND TRADITION

For many years, modern technology processes, quality management teams, and skilled workers have joined forces with traditional family methods in the fishing industry. This has resulted in successful endeavors in fishing, preservation, production and export to major markets in and around the Caribbean.

### QUALITY SEAFOOD PRODUCTS

As a top seafood supplier, we take pride in our unwavering commitment to providing the best products to our customers. We source our fish and seafood products from the freshest and most delicious offerings available all over the world. To maintain maximum quality control over our fresh and frozen seafood items, we purchase directly from the source. You can rest assured that your seafood program is in good hands with our focus on quality, variety, and reliability. Moreover, our logistics system is unmatched in the industry, ensuring seamless inbound and outbound delivery. We are the perfect partner for all your seafood needs.

### COMMITMENT TO QUALITY

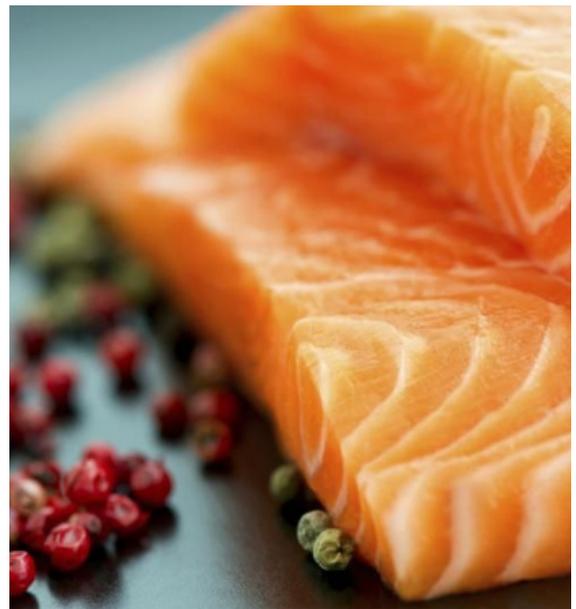

Our skilled and dedicated quality team works relentlessly to assure and maintain the highest quality standards. Routine Testing is carried out on raw materials and environmental weekly along with temperature testing. Combining the use of internal and external laboratories for extensive testing, temperatures, freshness and traceability are continuously monitored.

## MEMBERSHIP & CERTIFICATIONS

# FEATURED PRODUCT

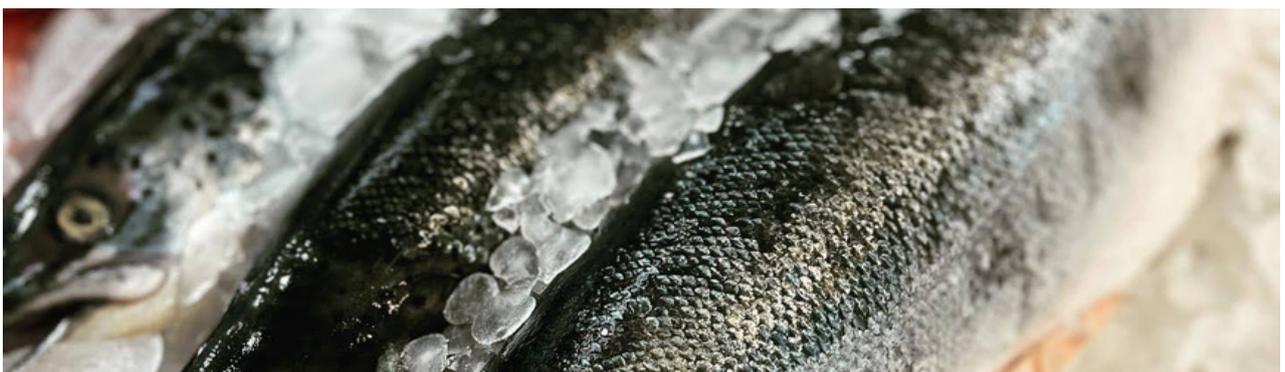

## In-House Processing of Fresh Salmon Fillet

We take pride in our in-house processing of fresh salmon fillet. Our team produces a range of scrumptious cut portions, smoked products, value-added products, and sushi-grade cuts using a significant portion of the fillet.

Preserving the Quality and Taste of Salmon Through Vacuum Packing To prevent bacterial contamination and extend its shelf life, salmon is vacuum packed. This method preserves the structure and flavor of the fish.

Sorting and Packaging Fresh Salmon Fillets for shipment once the final inspection is complete, fresh salmon fillets are sorted by weight and then carefully packed into boxes ranging from 20lbs to 100lbs. These boxes are then sent out to customers.

We look  
after  
you.

PRODUCT CODE: #

## SALMON WHOLE

Various weight

8-12lbs  
12-20lbs, Chilled, Fresh

PRODUCT CODE: #
