GEOGRAPHY Area Total: 5,128 sq km
Land: 5,128 sq km, Water: 0 sq km
Climate tropical; rainy season (June to December)
Natural Resources petroleum, natural gas, asphalt.

Our Story

One Sunday afternoon in Trinidad & Tobago, in 2014, Nigel Jordan and his son, Isaac thought that the herbs in the family garden could be part of a great craft project. They looked great and tasted way better than expected.

This was the start of great things to come!

Traditional Caribbean Flavour hand crafted from the finest natural ingredients. With ingredients so rich and bursting with flavour there would be no need for additives. The next few months were spent developing techniques to deliver a luxurious taste of the Caribbean to the world... Naturally. We now have product available in the UK, USA and to the world via our website.

Who We Are

With eco-consciousness ingrained in the company's DNA, Twigs Naturals' commitment to sustainably producing high quality teas and spices doesn't just end with working with farmers that utilize natural and sustainable farming methods.

Caribbean grown products are packaged in resealable and reusable packaging made from recyclable material. Production takes place in our versatile plant, specialized in organic processing to efficiently work within the green economy.

The main production ethos utilizes quality subsystems; Good Manufacturing Practices (GMP) and employ US FDA Certified Food Safety Personnel.

The Result

Through our dedication to quality we have been able to attain several international awards. Twigs Naturals, the first Caribbean brand to win awards at the Global Tea championship was able to attain awards in 2 categories.

 **EY Entrepreneur Of The Year®**
2017 Award Winner

Our Teas

Twigs Naturals products are packaged in resalable Stand up Kraft pouches. Our teas are packaged with 10 individual servings of teabags Made of non-woven Zein fabric.

Zein is a fabric made from corn starch. It is Biodegradable and food safe

These oversized teabags give the drinker the optimal portion of ingredients. Interaction of water and ingredient is critical so this packing method gives convenient cleanup with the flavor experience of traditional methods. It's not uncommon for teabags to become filled during the steeping process as the ingredients expand in the water.

Our Herbs & Spices

Twigs Naturals products are packaged in resalable Stand up Kraft pouches. Our Herbs & Spices are machine dehydrated in a controlled environment to maximize on maintaining the unique flavours while using the oldest food preservation method known to man. They contain no additives, fillers or preservatives.

We recommend that a just before adding to dishes a gentle crushing of the ingredients by hand to break the cell walls to capitalize on the richness of flavours. For added convenience a small herb grinder can also be used.
